PDF 1.3 vs PDF/X-3

■ Restrictions

- No RGB images (without ICC profile)
- No annotations inside MediaBox
- No visible form fields, buttons and links
- No encryption
- No external references

■ Requirements

- All fonts must be embedded
- All images must be in high resolution
- Trapping key (with/without trapping)
- Page geometry (BleedBox, TrimBox)

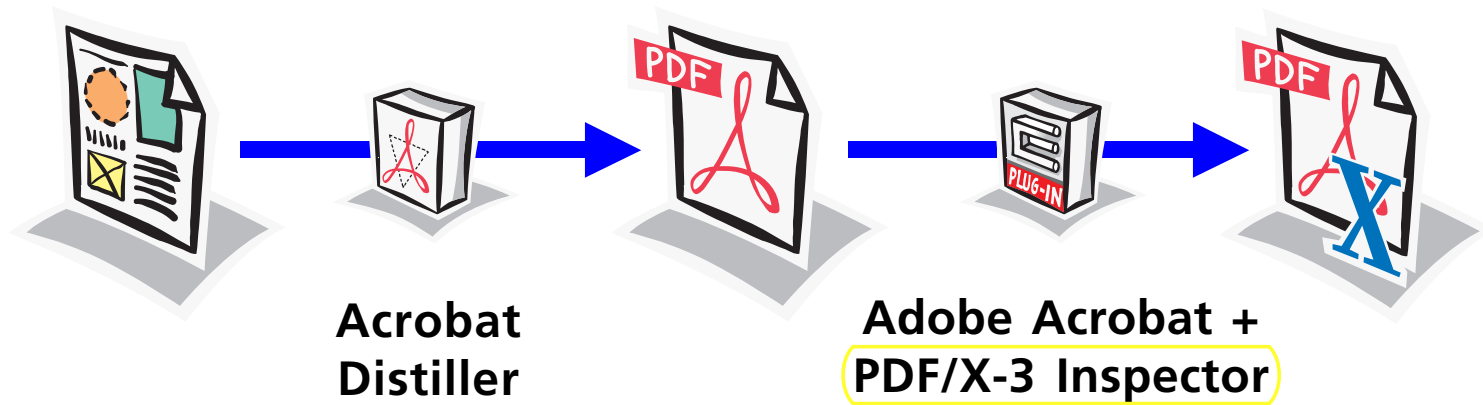

■ Enhancements to Adobe PDF 1.3 specifications

- PDF/X identification in info dictionary
- Embedded ICC profile to characterize the intended printing condition

PDF/X-3 Workflow
